

STILL INTO HARSH CHEMS TO KILL GERMS?

ANTIMICROBIAL NANO-COATING.

lotus nano.

KILLS WITH SPIKES. 24/7 FOR 365 DAYS GUARANTEED!

Quantum leaps in the World of Nanotechnology make it now possible to **spray-coat any surface** at your premises and be protected for more than 365 days with an efficacy of over 99%.

Antimicrobial coating is **100% safe to use** even for infants and pets. It adheres onto any surface it is sprayed onto and builds a new layer of **razor-sharp spikes** which **kill hundreds of Viruses, Bacteria and Fungi**, including:

SARS-CoV2 (Covid-19), Influenza, Polio, Noro, Hepatitis, MRSA, E.Coli, Salmonella, Streptococcus, etc.

At **Lotus Nano** we provide you with independent **expert advise** on using the right products and scope of surfaces to be covered. Our **professionally trained and experienced team** will make sure of all surface are coated in line with best international practices.
